

# Korado Decorative Clip-On Panel

## Korado Decorative Panel

Give your home heating a stylish refresh with the sleek, smooth-lined Korado decorative panel. This clip-on steel front panel is the perfect way to upgrade the look of your existing Korado Universal radiator without replacing the whole unit. It's a clever add-on that gives your radiator a fresh, modern finish in just minutes. Once installed, the output aligns with the Korado Line range, delivering consistent, efficient warmth with a premium look. Whether you're renovating, redecorating, or just want a cleaner, more modern aesthetic, the Korado decorative panel delivers.

Built from high-quality steel with a durable powder-coated finish, it's designed to last the life of your system. Installation takes around five minutes with no plumbing or major changes required, making it a quick and easy upgrade for any home. It's a smart way to get more out of your heating, both in style and performance.
