

Rinnai I-Series Fitting KIT

BRIFA – Right Angle

The **BRIFA** fitting kit is specific to the Rinnai I-Series boiler. This kit is intended to make the right angle connection of primary feed pipes and gas as simple and compact as possible and still retain key components such as a filter/strainer, drain/fill valve, pressure gauge and ball valves with gasketed swivel unions for ease of connection.

See list of included components that make up **BRIFA**:

Pre Piping Boiler for Fitting Kit - Dimensions

To achieve the dimensions stated above it is recommended that all fittings are threaded as close to the bottom threads where possible. CHNZ recommend using Loctite 55 thread cord, Hemp and Hawk White or other thread sealing products for these joints.
