

Manual Pressing tools

for interchangeable inserts

MP20

Hand Pliers

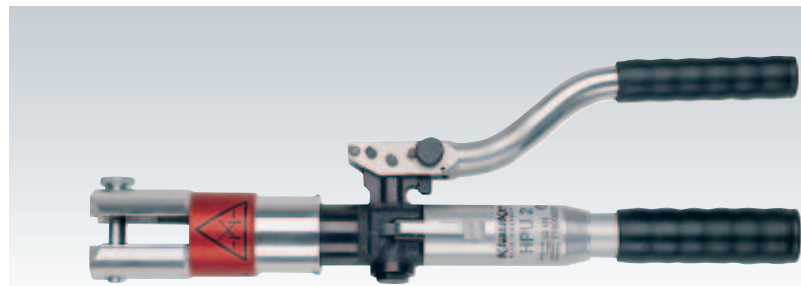

- For press fittings dependent on system
- Up to pipe dia. 20
- Weight: Approx. 1.6 kg
- Incl. steel case

MP32

Manual Pliers

- For all press fittings up to DIM 32 resp. CU/ST up to DIM 22
- 360° moveable head
- With telescope handles
- Weight: Approx. 2.7 kg
- Incl. carrying bag

HPU2

Manual hydraulic pressing tool

- Compatible with all pressing jaws common on the market
- at least 32 kN thrust
- 360° moveable jaw holder
- Weight: approx. 3.1 kg
- Incl. steel case

RR1

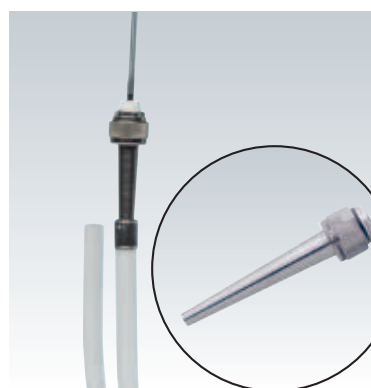

Pipe Straightening Device

- With reel for multi-layer pipes up to dimension 26
- Infinitely adjustable
- Also separately available
- Weight pipe reel: approx. 12.5 kg
- Weight straightener: approx. 4.3 kg

Deburring Tools and Calibrators

- For all usual multilayer pipes and PEX tubes up to DIM 40
- Also produced individually to customers' specifications
- With triangle section on screw handle for battery screw drivers

Leakage test plug "drilly"

(for multiple use)

- With pressure valve
- For multilayer and PEX pipes DIM 14-16-18-20
- Also available with 1/2 inch outer and inner thread for use with pressure gauge
- Application with other pipes and dimensions on request

Mains supply circuit NG1

All Klauke battery-powered pressing tools with 12 V drive can be operated by a mains supply circuit instead of a battery.

Available for a mains voltage of 230 V AC part No. NG1/230 or 115 V AC part No. NG1/115

General Information:
Excessive temperature protection
Input current surge restriction
Voltage surge protection 250 V

Weight:
Approx. 0.700 kg
